Dear BTA,

I am writing this letter to share the pleasant experiences I have had with your association. While talking to Helen in your advertising department, she mentioned that members could have websites built for them and hosted at a very affordable price. After discussing the specifics of the website my company decided it sounded like an excellent idea and we decided to purchase a website. The BTA has an excellent graphic designer who put together the website. Once we approved of the design he put together for us, we officially had our own website. In my opinion this website will not only help gain us exposure, but is a great tool to lure prospective customers to use us.

The BTA is an association I can feel proud to belong to. Helen answered all of my questions and was an overall joy to talk to on the phone. Other than the website I also feel the BTA has many valuable services to offer members like myself. I look forward to my continued experience with this association and plan on using many of their services in the future. I would highly recommend this association to any contractor.

Sincerely,

Elyse Lavanholi
Receptionist
